

DARING BUT TIMELESS

Embracing strong colour, when designed as part of the flow of the rest of a home, can produce joyful results. 'Boldly coloured and patterned tiles can add such personality, dynamism and impact to bathrooms, really lifting the space,' enthuses Caz Myers, director, Caz Myers Design. 'While the tiles may be dramatic, the overall scheme can be timeless if you choose a colour that truly resonates. Pattern-wise, go for tiles in two-tone repeats, like these modern geometrics, which, even when mixed, work effectively to create a unique and surprisingly restful space.' →
